IT support technician  
Desktop Technology Services Ltd  
Hamilton central, Hamilton

Dear Sir/Madam,

Re: IT support technician

I am writing to apply for the position of IT support technician with Desktop Technology Services Ltd, which was advertised on <https://www.seek.co.nz>. I am particularly interested in this position as I enjoy the busyness that comes with working as IT technician.

I have a background in IT support technician of five years. I have developed excellent relationship, assist with technology and communication skills during my previous working period at Refugee Orientation Center as IT assistant. In addition to the experiences, I have collaboration at work.

In addition to this, I am a good communicator at work, friendly and flexible, good at attention to detail and ethic behaviors. I have Bachelor's degree in Education and Information Technology and New Zealand Certificate in Applied Software Development Level 6. I speak four languages including English, French, Swahili and Kinyarwanda, I have a NZ driver license, and I am available to start immediately.

After reading about the company vision, mission and working atmosphere at Desktop Technology Services Ltd, I became more interested in working with an excellent team. I consider myself fit for this position because I always look for new ways to streamline processes and increase efficiency. I am also excellent at problem-solving and have a knack for quickly understanding complex systems. Beyond that, I am confident, personable, and always willing to learn new things.

I have attached my CV to my application and would welcome the opportunity to further discuss the position with you in person. Thank you for considering my application, and I look forward to hearing from you.

Yours sincerely,

Credu Gapson
